SONICWARE

LIVEN
8bit warps

Sonicware launched the Kickstarter project for the live performance synth **LIVEN 8bit warps** on January 11th.

The **LIVEN 8bit warps** combines an 8-bit waveform memory synthesizer with a step sequencer.

• Range of useful 8-bit sounds

Carefully selected preset waveforms and editable user waveforms along with high-quality filters and effects can be used freely to create a wide spectrum of sounds. The **LIVEN 8bit warps** can generate classic retro game sounds of course, but its unique 8-bit sound can also be used in a range of music genres, including EDM, hip-hop, techno and rock.

• Ideal for live electronic performance

Powerful functions for live electronic music performance include 16 physical control knobs, parameter locking for each sequencer step, a looper, and SYNC IN/OUT and MIDI IN/OUT connectors to make synchronized performance with other equipment easy.

• Light and battery-powered with a built-in speaker

All these powerful functions are in a device that weighs only 790 g. Play it anywhere at any time.

We are seeking your support to produce the **LIVEN 8bit warps** through KICKSTARTER crowdfunding. Please help us bring the **LIVEN 8bit warps** to life!

Specifications

Size&Weight: 297mm (W) × 176mm (D) × 48mm(H), 790g

27-keys

MIDI IN & OUT

SYNC IN & OUT

Built-in Speaker

Stereo line output

Stereo line input

Headphone output

9V DC, 6 AA batteries

Four 8bit wave memory synth engines (WARP, ATTACK, MORPH, FM)

Powerful voice mode(POLY, MONO, LEGATO, UNISON and ARPEGGIATORS)

ADSR EG

LPF, HPF, BPF

Chorus, Flanger, Delay, Hall and Plate Effects

1xLFO(for Pitch&Filter Freq)

128-patch memory

128-waveform memory

64-step Sequencer, 128 patterns, Real-time and step recording, Pattern chain, Metronome

Octave shift

Pitch bend

Swing control

Looper

Parameter automation

Please note that this is as of January 2020 and may change at the time of release.

About SONICWARE

SONICWARE Inc. was founded in 2004 in Tokyo, Japan by Yu Endo.

"By constantly striving to invent and advance new instruments, we seek to contribute to the creation of new musical compositions and culture."

This is the SONICWARE mission.

Launched portable synthesizer ELZ_1 in 2019. Its distinctive sound and concept, easy-to-use UI and quality have been highly evaluated by various media, Jordan Rudess of Dream Theater, Pete Townshend of The Who, BT and many other celebrities.
