

# SmpITrek v2.0 Upgrade Guide

*[Note] Use the AC adapter or new batteries.*

*Never interrupt the power during a firmware update.*

## Updating the firmware

- 1 Download the firmware (.zip) from the following URL.  
<https://sonicware.jp/pages/downloads>
- 2 Connect the SD card to the PC/Mac by inserting it into the PC/Mac's card slot or using the SmpITrek's card reader mode.
- 3 Unzip the downloaded firmware (.zip) and copy the binary file (SmpITrek.bin) to the root folder on the SD card.

on Windows

on Mac

- 4 Remove the SD card from the PC/Mac and insert it into the SmpITrek or deactivate the SmpITrek's card reader mode and shut it down.
- 5 While pressing  , press and hold the power button.
- 6 When the update screen opens, select **SYSTEM UPDATE**, and press OK.

**7** Press OK to start the update.

*Screen display varies by version*

**8** After it completes, press the power button to shut the unit down. Then, restart it.

## Next, install the new drum kits

**1** Press **func** + **system** button to open the **SYSTEM MENU**, select **CARD** and press OK.

**2** Select **DUPLICATE PRESETS** and press OK.

**3** Select **DRUM KIT** under **DUPLICATE TARGET?** and press OK.
